English

Before using this product, please be sure to:

1. Read this booklet.

Check the components and the procedures for setting up the projector and carrying out projection.

2. Read the "Safety Instructions/World-Wide Warranty Terms".

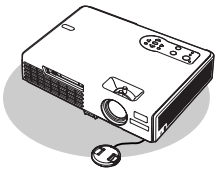
It contains important information on using the projector safely, and also includes the terms and conditions of the worldwide warranty. Be sure to read this booklet thoroughly before using the projector.

The most commonly used functions of the projector are covered in the *Quick Reference Guide*. Always keep this with the projector so that it can be referred to when needed.

See "Troubleshooting" in the *User's Guide* if there are problems such as no projection, poor image quality, etc.

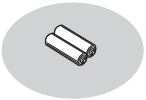
Unpacking the Projector

When you unpack the projector, make sure that you have all these components.
If any of the components are missing or incorrect, please contact the supplier.



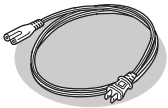
☐Projector
(With lens cover attached)

☐Remote control

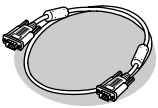


☐AAA alkali batteries
(2 pcs.)
Insert into the remote control.

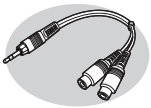
☐Wireless LAN card
(IEEE 802.11g/b compatible)
Insert into the card slot of the projector when connecting to a computer via a wireless LAN.



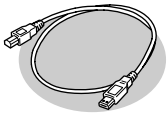
☐Power cable
(1.8 m (6 ft.))
Use to connect the projector to an electrical outlet.



☐Computer cable
(mini D-Sub 15-pin/ mini D-Sub 15-pin, 1.8 m (6 ft.))
Use when projecting computer images.



☐Audio adapter
(3.5 mm dia. Stereo mini plug/ RCA pin jack × 2 red/white, 20 cm (7.9 inches))
Connect this adapter with a commercially-available RCA audio cable to output sound of video equipment from the projector's built-in speaker.



☐USB cable
(1.8 m (6 ft.))
Use when connecting to a computer with a USB port to use the wireless mouse function or to send data to the projector.

☐EasyMP Software
(CD-ROM 1 pc.)
Use to install the EasyMP software into a computer.

☐Password Protect sticker
When Password Protect is enabled, attach this to somewhere on the projector where it is clearly visible to increase anti-theft effectiveness.

☐Soft carrying case
(with shoulder strap and handle)
For carrying the projector.

Documentation

☐Read This First (this booklet)
☐Safety Instructions/ World-Wide Warranty Terms
☐Document CD-ROM
☐Quick Reference Guide
☐EasyMP Network Setup Guide

Document Contents

This projector is supplied with the following five manuals.

EasyMP Network Setup Guide

Contains instructions on how to set up and connect the projector to a computer (using either a wireless LAN or a wired LAN).

Quick Reference Guide

Contains basic information on using the projector.
Leave this near the projector at all times so it is on hand for easy reference.

The following documents are contained in the Document CD-ROM.

User's Guide (PDF)

This contains detailed information on all aspects of projector operation.
Refer to this manual if you wish to know about a function in detail or if you have a problem with the projector.

EasyMP Operation Guide (PDF)

This contains useful information on using the projector to give presentations via a network.

EMP Monitor Operation Guide (PDF)

This contains information on how to monitor and control the projector via a network.

☛ "Viewing the Contents of the Document CD-ROM" p.8

Be sure to read the manuals carefully in order to ensure safe and correct operation. Keep them in a safe place nearby where they will always be available for referring to in order to help solve any problems or questions you may have.

Check the Steps for Using the Projector

This section provides a brief explanation of different setup procedures for different purposes and the manuals to be referred to in each case.

The following icons are used to indicate the various reference manuals.

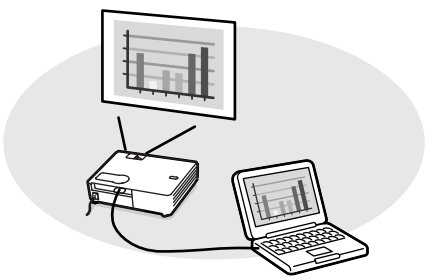
Quick Reference Guide

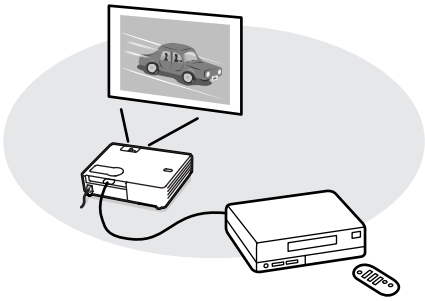
User's Guide

EasyMP Operation Guide

EasyMP Network Setup Guide

Using the connection cable to project computer or video images





1 Set up the projector — "Setup"

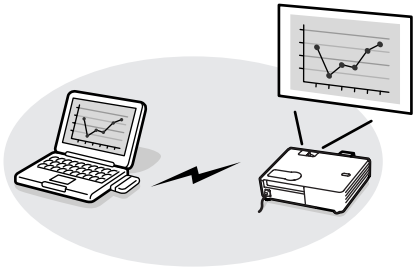
2 Use the connection cable to:

- ▶ Connect to a computer
- ▶ Connect to a video source

— "Connections"

3 Turn the power on and project the images — "Projection Preparation and Adjustments"

Projecting computer images (Easy connection using a wireless LAN)



1 Prepare the computer

- ▶ Install EMP NS Connection — "Installing the EasyMP Software Into the Computer"
- ▶ Insert the wireless LAN card* — Computer documentation

* This operation is not required if using the built-in wireless LAN function.

- ▶ Set up the wireless LAN — "Computer Wireless LAN Settings"

2 Prepare the projector

- ▶ Set up the projector — "Setup"
- ▶ Turn the power on — "Projection Preparation and Adjustments"
- ▶ Insert the wireless LAN card — "Inserting the Wireless LAN Card into the Projector"
- ▶ Set up the wireless LAN — "Connecting Using Easy Connect Mode (Wireless LAN)" - "Projector Network Settings"

3 Connect via the network

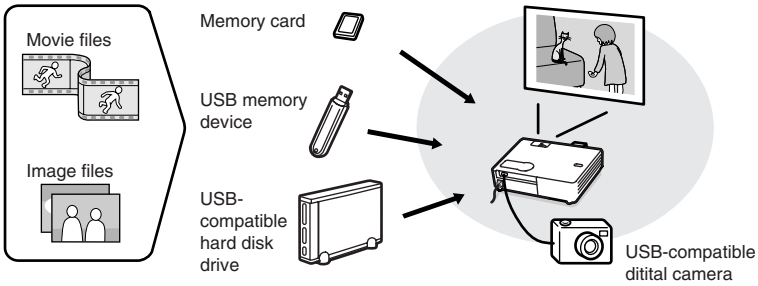
"Connecting the Computer and Projector via the Network"

4 Operations after connection

- ▶ Projected image operations — "Functions for Enhancing Projection"
- ▶ Disconnecting — "Disconnecting from a Network Connection"

English

Projecting movie files and digital camera photos



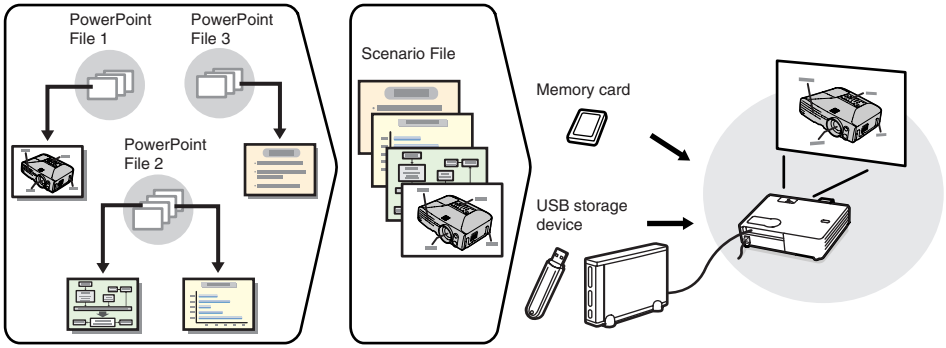
1 Set up the projector — "Setup"

2 Insert the memory card or connect the USB device — "Inserting and Removing Cards"; "Connecting USB Devices (Digital Camera, Hard Disk Drive or Memory Devices)"

3 Turn the power on and start projection — "Projection Preparation and Adjustments"

4 Project the movie files or images — "Playing Image and Movie Files"

Giving presentations without using a computer



1 Install EMP SlideMaker2

"Installing the EasyMP Software Into the Computer"

2 Create a scenario

"Creating a Scenario"

3 Prepare the projector

- ▶ Set up the projector — "Setup"
- ▶ Insert the memory card or connect the USB device — "Inserting and Removing Cards"; "Connecting USB Devices (Digital Camera, Hard Disk Drive or Memory Devices)"
- ▶ Turn the power on and start projection — "Projection Preparation and Adjustments"

4 Play back, manage and edit the scenario

Viewing the Contents of the Document CD-ROM

Tip :

The PDF manuals in the Document CD-ROM are version 1.3. Acrobat Reader version 4.0 or later, or Adobe Reader is required to view the PDF manuals. The Document CD-ROM contains Acrobat Reader 5.05 for Windows. If you need a different version of Acrobat Reader or Adobe Reader, visit the Adobe Systems website.

1 Turn on the power for the computer and insert the Document CD-ROM into the computer's CD-ROM drive.

If using Windows

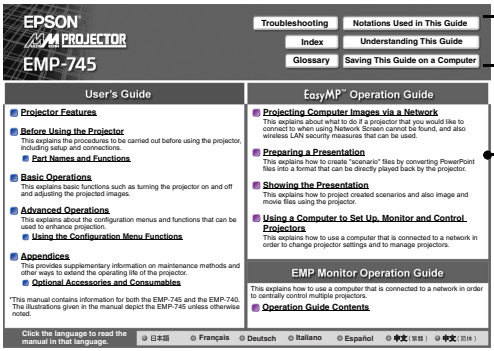
A page will be automatically displayed for you to select the model of projector you are using.

If using a Macintosh

Double-click the "Launcher_for_OS86_9x" or the "Launcher_for_OSX" file to display a page for selecting the model of projector you are using.

2 Click the model of projector you are using.

The following main page will be displayed.



Read the "Notations Used in This Guide" and "Understanding This Guide" on the main page before looking in detail at the menu items.

When you move the mouse pointer over a menu item, the pointer will change to a . If you click a menu item, the details for that item will be displayed.

All of the manuals can be printed out as well as viewed on-screen. To print out a manual, display the required manual on the screen and then click the "Print" icon. Refer to "Saving This Guide on a Computer" for details about the "Print" icon.

Tip :

When using Windows, a message will be displayed in case that Acrobat Reader is not already installed on the computer. Follow the instructions which are displayed on the screen to install Acrobat Reader. Once the installation has been completed, remove the Document CD-ROM from the computer's CD-ROM drive and then re-insert it to display the projector model selection page once more.
